Summary

I am a self-motivated **Full-Stack Web Developer** with a knack for simple and efficient problem solving. I am a recent graduate of a 24-week coding bootcamp at the University of Washington, Seattle in partnership with edX. I am eager to take all I've learned to the next level with real-world experience that pushes me to my limits and allows further growth as a web developer.

Work Experience

Laboratory Technician, MCL Food Testing
Seattle, WA
September 2019 - Present

• Utilize various microbiological methods to perform various ISO-certified tests to ensure the highest quality of food safety for clients
• Database management
• Train new employees in types of laboratory work
• Accurately interpreted laboratory results and made decisions accordingly in a high-stress, fast-paced environment

Student Coordinator, Local Point at the University of Washington
Seattle, WA
November 2015 - September 2018

• Worked in a fast paced environment to make and expedite food for thousands of students a day.
• Acted as a student supervisor to manage a team of more than 100 students through different departments all of which were responsible for a wide array of tasks that I ensured all were completed correctly.

Courtesy Clerk, Safeway
Arlington, WA
June 2014 - May 2015

• Greeted customers, bagged groceries and helped individuals out to their cars to ensure every customer had a fantastic shopping experience
• Carried out various cleaning and maintenance tasks as necessary
